

**AMERIGAS PARTNERS, L.P.
AND SUBSIDIARIES
QUARTERLY REPORT**

for the three months ended December 31, 2023 and 2022

AmeriGas Partners, L.P. (“AmeriGas Partners”) is an indirect, wholly owned subsidiary of UGI Corporation (“UGI”), with no class of securities registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). As a result, AmeriGas Partners is not subject to the current and periodic reporting requirements of the Exchange Act. This quarterly report is provided to bondholders for informational purposes only pursuant to contractual requirements under certain indentures governing the rights of bondholders, and shall not constitute an offer to sell or the solicitation of an offer to buy any securities. As a result, none of UGI, AmeriGas Partners nor any of their respective affiliates accepts, and each specifically disclaims, any liability under federal securities laws whatsoever in connection with the provision of this quarterly report, including any liability under the Exchange Act or the Securities Act of 1933, as amended.

GLOSSARY OF TERMS AND ABBREVIATIONS

Terms and abbreviations used in this Quarterly Report are defined below:

AmeriGas Partners, L.P. and Related Entities

AmeriGas OLP - AmeriGas Propane, L.P., the principal operating subsidiary of AmeriGas Partners

AmeriGas Partners - AmeriGas Partners, L.P., a Delaware limited partnership and an indirect wholly owned subsidiary of UGI

Energy Services - UGI Energy Services, LLC, a wholly owned subsidiary of Enterprises

Enterprises - UGI Enterprises, LLC, a wholly owned subsidiary of UGI

General Partner - AmeriGas Propane, Inc., an indirect wholly owned subsidiary of UGI and the general partner of AmeriGas Partners

Partnership - AmeriGas Partners, AmeriGas OLP and all of their subsidiaries collectively

UGI - UGI Corporation or, collectively, UGI Corporation and its consolidated subsidiaries

Other Terms and Abbreviations

2023 Annual Report - AmeriGas Partners' Annual Report for the fiscal year ended September 30, 2023

2022 three-month period - Three months ended December 31, 2022

2023 three-month period - Three months ended December 31, 2023

2022 AmeriGas OLP Credit Agreement - Revolving credit agreement entered into by AmeriGas OLP on September 28, 2022 and scheduled to expire in September 2026

ASC - Accounting Standards Codification

ASC 606 - ASC 606, "Revenue from Contracts with Customers"

COVID-19 - A novel strain of coronavirus disease discovered in 2019

FDIC - Federal Deposit Insurance Corporation

Fiscal 2021 - The fiscal year ended September 30, 2021

Fiscal 2022 - The fiscal year ended September 30, 2022

Fiscal 2023 - The fiscal year ending September 30, 2023

Fiscal 2024 - The fiscal year ending September 30, 2024

GAAP - U.S. generally accepted accounting principles

MGP - Manufactured gas plant

NOAA - National Oceanic and Atmospheric Administration

NPNS - Normal purchase and normal sale

NYDEC - New York State Department of Environmental Conservation

PRP - Potentially responsible party

ROD - Record of Decision

U.S. - United States of America

(unaudited)

(Millions of dollars, except where indicated otherwise)

Note 1 — Nature of Operations

AmeriGas Partners conducts a national propane distribution business through its principal operating subsidiary, AmeriGas OLP. AmeriGas Partners and AmeriGas OLP are Delaware limited partnerships. AmeriGas OLP is engaged in the distribution of propane and related equipment and supplies. AmeriGas OLP comprises the largest retail propane distribution business in the U.S. based on the volume of propane gallons distributed annually, serving residential, commercial, industrial, motor fuel and agricultural customers in all 50 states.

UGI's wholly owned second-tier subsidiary, AmeriGas Propane, Inc. serves as the General Partner of AmeriGas Partners. AmeriGas Propane GP, LLC, a wholly owned subsidiary of AmeriGas Partners, is the general partner of AmeriGas OLP.

AmeriGas Partners and AmeriGas OLP have no employees. Employees of the General Partner conduct, direct and manage our operations. The General Partner is reimbursed monthly for all direct and indirect expenses it incurs on the Partnership's behalf (see Note 9).

Note 2 — Summary of Significant Accounting Policies

Overview. The accompanying condensed consolidated financial statements are unaudited and have been prepared in accordance with GAAP. They include all adjustments which we consider necessary for a fair statement of the results for the interim periods presented. Such adjustments consist only of normal recurring items unless otherwise disclosed. The September 30, 2023, Condensed Consolidated Balance Sheet was derived from audited financial statements but does not include all footnote disclosures from the annual financial statements.

These financial statements should be read in conjunction with the financial statements and related notes included in the Partnership's 2023 Annual Report. Weather significantly impacts demand for propane and profitability because many customers use propane for heating purposes. Due to the seasonal nature of the Partnership's propane business, the results of operations for interim periods are not necessarily indicative of the results to be expected for a full year.

Derivative Instruments. Derivative instruments are reported on the Condensed Consolidated Balance Sheets at their fair values, unless the NPNS exception is elected. Since we do not currently have derivative instruments that are designated and qualify as cash flow hedges, changes in fair value of our commodity derivative instruments that are not subject to the NPNS exception are reflected in "Cost of sales — propane" on the Condensed Consolidated Statements of Operations. Cash flows from commodity derivative instruments are included in cash flows from operating activities on the Condensed Consolidated Statements of Cash Flows.

For a more detailed description of the derivative instruments we use, our accounting for derivatives, our objectives for using them and other information, see Note 8.

Goodwill. We do not amortize goodwill, but test it at least annually for impairment at the reporting unit level. A reporting unit is an operating segment, or one level below an operating segment (a component) if it constitutes a business for which discrete financial information is available and regularly reviewed by segment management. Components are aggregated into a single reporting unit if they have similar economic characteristics. A reporting unit with goodwill is required to perform an impairment test annually or whenever events or circumstances indicate that the value of goodwill may be impaired.

As previously disclosed in Note 9 in the Partnership's 2023 Annual Report, a non-cash pre-tax goodwill impairment charge of \$650 was recognized in Fiscal 2023 to reduce the carrying value of the Partnership to its fair value. The Partnership continues to monitor for any changes in facts and circumstances that would indicate it is more likely than not that the fair value of the Partnership is less than its carrying amount. No such indicators were identified at December 31, 2023, however if the Partnership were not able to achieve its anticipated results and/or if its discount rate were to increase, its fair value would be adversely affected, which may result in further impairment. There is approximately \$1.3 billion of goodwill as of December 31, 2023.

Use of Estimates. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and costs. These estimates are based

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Millions of dollars, except where indicated otherwise)

on management's knowledge of current events, historical experience and various other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results may be different from these estimates and assumptions.

Subsequent Events. Management has evaluated the impact of subsequent events through February 1, 2024, the date these condensed consolidated financial statements were issued and the effects, if any, of such evaluation have been reflected in the condensed consolidated financial statements and related disclosures.

Note 3 — Revenue from Contracts with Customers

We recognize revenue when control of the promised goods or services is transferred to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. See Note 3 in the Partnership's 2023 Annual Report for additional information on our revenues from contracts with customers.

Revenue Disaggregation

The following table presents our disaggregated revenues:

	Three Months Ended December 31,	
	2023	2022
Revenues from contracts with customers:		
Propane:		
Retail	\$ 533	\$ 634
Wholesale	22	51
Other	52	57
Total revenues from contracts with customers	607	742
Other revenues (a)	22	24
Total revenues	\$ 629	\$ 766

(a) Primarily represents revenues from tank rentals that are not within the scope of ASC 606 and accounted for in accordance with other GAAP.

Contract Balances

The timing of revenue recognition may differ from the timing of invoicing to customers or cash receipts. Contract assets represent the Partnership's right to consideration after the performance obligations have been satisfied when such right is conditioned on something other than the passage of time. Contract assets were not material for all periods presented. Substantially all of the Partnership's receivables are unconditional rights to consideration and are included in "Accounts receivable" on the Condensed Consolidated Balance Sheets. Amounts billed are generally due within the following month.

Contract liabilities arise when payment from a customer is received before the performance obligations have been satisfied and represent the Partnership's obligations to transfer goods or services to a customer for which the Partnership has received consideration from the customer. The balances of contract liabilities were \$65, \$73 and \$75 at December 31, 2023, September 30, 2023 and December 31, 2022, respectively, and are included in "Customer deposits and advances" and "Other current liabilities" on the Condensed Consolidated Balance Sheets. Revenues recognized during the three months ended December 31, 2023 and 2022, from the amounts included in contract liabilities at September 30, 2023 and 2022, were \$25 and \$33, respectively.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Millions of dollars, except where indicated otherwise)

Remaining Performance Obligations

The Partnership excludes disclosures related to the aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied as of the end of the reporting period because these contracts have an initial expected term of one year or less or we have a right to bill the customer in an amount that corresponds directly with the value of services provided to the customer to date.

Note 4 — Inventories

Inventories comprise the following:

	December 31, 2023	September 30, 2023	December 31, 2022
Propane gas	\$ 122	\$ 112	\$ 134
Materials, supplies and other	42	43	48
Total inventories	\$ 164	\$ 155	\$ 182

Note 5 — Debt

The following significant financing activities occurred during the three-months ended December 31, 2023.

2022 AmeriGas OLP Credit Agreement. Under the 2022 AmeriGas OLP Credit Agreement, AmeriGas OLP, as borrower, is required to comply with financial covenants related to leverage and interest coverage measured at the Partnership and at AmeriGas OLP. The 2022 AmeriGas OLP Credit Agreement contains an equity cure provision, which allows AmeriGas OLP's direct or indirect parent, including UGI and its other subsidiaries, to fund capital contributions to eliminate any EBITDA (as defined in the 2022 AmeriGas OLP Credit Agreement) shortfalls that would otherwise result in non-compliance with these financial covenants. Each equity cure is eligible to eliminate such EBITDA shortfalls up to four quarters after contribution. We are permitted to use the equity cure provision five times over the course of the Credit Agreement, twice during any rolling four-quarter period, and not in consecutive quarters.

UGI made capital contributions to AmeriGas OLP during Fiscal 2023, which in aggregate represented one equity cure that is eligible to eliminate any EBITDA shortfalls through December 31, 2023, in accordance with the 2022 AmeriGas OLP Credit Agreement. As a result of such capital contributions, AmeriGas OLP and the Partnership were in compliance with all financial covenants after consideration of the equity cure provision as of December 31, 2023.

UGI also provided an irrevocable letter of support whereby UGI has committed to fund any such EBITDA shortfalls and debt service, if any. Based on the support and the projected EBITDA, AmeriGas OLP is expected to remain in compliance with its financial debt covenants for the succeeding twelve-month period.

On November 15, 2023, the Partnership entered into an amendment to the 2022 AmeriGas OLP Credit Agreement, which amends certain provisions of the credit agreement to, among other things, (i) reduce the maximum revolver amount from \$600 to \$400, (ii) reduce the minimum interest coverage ratio, effective for the fourth quarter of Fiscal 2023 through the end of Fiscal 2024 and (iii) provided that, beginning for the first quarter of Fiscal 2025, the minimum interest coverage ratio will remain reduced if the net leverage ratio is below a certain threshold as defined by the agreement; if the net leverage ratio exceeds such threshold, the minimum interest coverage ratio will revert to the original ratio as defined by the agreement.

Note 6 — Commitments and Contingencies

Saranac Lake Environmental Matter. In 2008, the NYDEC notified AmeriGas OLP that the NYDEC had placed property purportedly owned by AmeriGas OLP in Saranac Lake, New York on the New York State Registry of Inactive Hazardous Waste Disposal Sites. A site characterization study performed by the NYDEC disclosed contamination related to a former MGP. AmeriGas OLP responded to the NYDEC in 2009 to dispute the contention it was a PRP as it did not operate the MGP and appeared to only own a portion of the site. In 2017, the NYDEC communicated to AmeriGas OLP that the NYDEC had previously issued three RODs related to remediation of the site totaling approximately \$28 and requested additional information

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Millions of dollars, except where indicated otherwise)

regarding AmeriGas OLP's purported ownership. AmeriGas OLP renewed its challenge to designation as a PRP and identified potential defenses. The NYDEC subsequently identified a third party PRP with respect to the site.

The NYDEC commenced implementation of the remediation plan in the spring of 2018. Based on our evaluation of the available information as of December 31, 2023, the Partnership has an undiscounted environmental remediation liability of \$8 related to the site. Our share of the actual remediation costs could be significantly more or less than the accrued amount.

In addition to the matter described above, there are other pending claims and legal actions arising in the normal course of our businesses. Although we cannot predict the final results of these pending claims and legal actions, including those described above, we believe, after consultation with counsel, that the final outcome of these matters will not have a material effect on our financial statements.

Note 7 — Fair Value Measurements**Recurring Fair Value Measurements**

The following table presents, on a gross basis, our derivative assets and liabilities, including both current and noncurrent portions, that are measured at fair value on a recurring basis within the fair value hierarchy:

	Asset (Liability)				Total
	Level 1	Level 2	Level 3		
December 31, 2023:					
Assets:					
Commodity contracts	\$	—	\$	1	\$
Liabilities:					
Commodity contracts	\$	—	\$	(34)	\$
September 30, 2023:					
Assets:					
Commodity contracts	\$	—	\$	2	\$
Liabilities:					
Commodity contracts	\$	—	\$	(28)	\$
December 31, 2022:					
Assets:					
Commodity contracts	\$	—	\$	15	\$
Liabilities:					
Commodity contracts	\$	—	\$	(43)	\$

The fair values of our non-exchange traded commodity derivative contracts included in Level 2 are based upon indicative price quotations available through brokers, industry price publications or recent market transactions and related market indicators.

Other Financial Instruments

The carrying amounts of other financial instruments included in current assets and current liabilities (except for current maturities of long-term debt) approximate their fair values because of their short-term nature. We estimate the fair value of long-term debt by using current market rates and by discounting future cash flows using rates available for similar type debt (Level 2). The carrying amounts and estimated fair values of our long-term debt (including current maturities but excluding unamortized debt issuance costs) were as follows:

	December 31, 2023	September 30, 2023	December 31, 2022
Carrying amount	\$ 2,400	\$ 2,400	\$ 2,576
Estimated fair value	\$ 2,377	\$ 2,329	\$ 2,463

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Millions of dollars, except where indicated otherwise)

Financial instruments other than derivative instruments, such as short-term investments and trade accounts receivable, could expose us to concentrations of credit risk. We limit credit risk from short-term investments by investing only in investment-grade commercial paper, money market mutual funds, securities guaranteed by the U.S. Government or its agencies and FDIC insured bank deposits. The credit risk arising from concentrations of trade accounts receivable is limited because we have a large customer base that extends across many different U.S. markets. For information regarding concentrations of credit risk associated with our derivative instruments, see Note 8.

Note 8 — Derivative Instruments and Hedging Activities

The Partnership is exposed to certain market risks associated with its ongoing business operations. Management uses derivative financial and commodity instruments, among other things, to primarily manage commodity price risk. Although we use derivative financial and commodity instruments to reduce market risk associated with forecasted transactions, we do not use derivative financial and commodity instruments for speculative or trading purposes. The use of derivative instruments is controlled by our risk management and credit policies which govern, among other things, the derivative instruments the Partnership can use, counterparty credit limits and contract authorization limits. Although our commodity derivative instruments extend over a number of years, a significant portion of our commodity derivative instruments economically hedge commodity price risk during the next twelve months. For additional information on the accounting for our derivative instruments, see Note 2.

Commodity Price Risk

In order to manage market price risk associated with the Partnership's fixed-price programs and to reduce the effects of short-term commodity price volatility, the Partnership uses over-the-counter derivative commodity instruments, principally price swap contracts. In addition, the Partnership, from time to time, enters into price swap and option contracts to reduce the effects of short-term commodity price volatility. At December 31, 2023, September 30, 2023 and December 31, 2022, total volumes associated with propane commodity derivatives totaled 258 million gallons, 315 million gallons and 375 million gallons, respectively. At December 31, 2023, the maximum period over which we are economically hedging propane market price risk is 21 months.

To mitigate short-term market volatility associated with commodity instruments, the Partnership from time to time enters into diesel swap contracts for a portion of diesel volumes expected to be used in the operation of vehicles and equipment. The Partnership also enters into steel swaps to reduce price volatility associated with its portable cylinder purchases. The volumes associated with diesel and steel swap contracts were not material for all periods presented.

Derivative Instruments Credit Risk

The Partnership is exposed to credit loss in the event of nonperformance by our derivative instrument counterparties. Our derivative instrument counterparties principally comprise large energy companies and major U.S. financial institutions. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by the Partnership in the forms of letters of credit, parental guarantees or cash.

We have concentrations of credit risk associated with derivative instruments and we evaluate the creditworthiness of our derivative counterparties on an ongoing basis. As of December 31, 2023, the maximum amount of loss, based upon the gross fair values of the derivative instruments, we would incur if these counterparties failed to perform according to the terms of their contracts was \$1. At December 31, 2023, the Partnership had received no cash collateral from derivative instrument counterparties. In addition, we may have offsetting derivative liabilities and certain accounts payable balances with certain of these counterparties, which further mitigates the previously mentioned maximum amount of losses. Certain of our derivative contracts have credit-risk-related contingent features that may require the posting of additional collateral in the event of a downgrade in the Partnership's debt rating. At December 31, 2023, if the credit-risk-related contingent features were triggered, the amount of collateral required to be posted would not be material.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Millions of dollars, except where indicated otherwise)

Offsetting Derivative Assets and Liabilities

Derivative assets and liabilities are presented net by counterparty on the Condensed Consolidated Balance Sheets if the right of offset exists. Our derivative instruments comprise over-the-counter transactions. Over-the-counter contracts are bilateral contracts that are transacted directly with a third party. Certain over-the-counter contracts contain contractual rights of offset through master netting arrangements and contract default provisions. In addition, the contracts are subject to conditional rights of offset through counterparty nonperformance, insolvency, or other conditions.

In general, many of our over-the-counter transactions are subject to collateral requirements. Types of collateral generally include cash or letters of credit. Cash collateral paid by us to our over-the-counter derivative counterparties, if any, is reflected in the table below to offset derivative liabilities. Cash collateral received by us from our over-the-counter derivative counterparties, if any, is reflected in the table below to offset derivative assets. Certain other accounts receivable and accounts payable balances recognized on the Condensed Consolidated Balance Sheets with our derivative counterparties are not included in the table below but could reduce our net exposure to such counterparties because such balances are subject to master netting or similar arrangements.

Fair Value of Derivative Instruments

The following table presents our derivative assets and liabilities by type, as well as the effects of offsetting:

	December 31, 2023	September 30, 2023	December 31, 2022
Derivative assets:			
Derivative assets not designated as hedging instruments:			
Commodity contracts	\$ 1	\$ 2	\$ 15
Total derivative assets — gross	1	2	15
Gross amounts offset in the balance sheet	(1)	(2)	(14)
Total derivative assets — net (a)	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 1</u>

Derivative liabilities:**Derivative liabilities not designated as hedging instruments:**

	\$ (34)	\$ (28)	\$ (43)
Total derivative liabilities — gross	(34)	(28)	(43)
Gross amounts offset in the balance sheet	1	2	14
Cash collateral pledged	4	2	12
Total derivative liabilities — net (a)	<u>\$ (29)</u>	<u>\$ (24)</u>	<u>\$ (17)</u>

- (a) Derivative assets with maturities less than one year are included in “Prepaid expenses and other current assets” and derivative assets with maturities greater than one year are included in “Other assets” on the Condensed Consolidated Balance Sheets. Derivative liabilities with maturities greater than one year are included in “Other noncurrent liabilities” on the Condensed Consolidated Balance Sheets.

Effects of Derivative Instruments

Derivative instruments net losses reflected on the Condensed Consolidated Statements of Operations comprise the following:

	Three Months Ended December 31,		Location of Loss Recognized in Income
	2023	2022	
Derivatives Not Designated as Hedging Instruments:			
Commodity contracts	\$ (20)	\$ (19)	Cost of sales — propane

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Millions of dollars, except where indicated otherwise)

We are also a party to a number of contracts that have elements of a derivative instrument. These contracts include, among others, binding purchase orders, contracts that provide for the purchase and delivery of propane and service contracts that require the counterparty to provide commodity storage or transportation service to meet our normal sales commitments. Although certain of these contracts have the requisite elements of a derivative instrument, these contracts qualify for NPNS accounting under GAAP because they provide for the delivery of products or services in quantities that are expected to be used in the normal course of operating our business and the price in the contract is based on an underlying that is directly associated with the price of the product or service being purchased or sold.

Note 9 — Related Party Transactions

Partnership and Management Services Agreement. The General Partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on behalf of the Partnership. These costs include employee compensation and benefit expenses of employees of the General Partner and general and administrative expenses.

Administrative Services. UGI provides certain financial and administrative services to the General Partner. UGI bills the General Partner monthly for all direct and indirect corporate expenses incurred in connection with providing these services and the General Partner is reimbursed by the Partnership for these expenses. The allocation of indirect UGI corporate expenses to the Partnership utilizes a weighted, three-component formula based on the relative percentage of the Partnership's revenues, operating expenses and net assets employed to the total of such items for all UGI operating subsidiaries for which general and administrative services are provided. The General Partner believes that this allocation method is reasonable and equitable to the Partnership.

In addition, UGI and certain of its subsidiaries provide office space, stop loss medical coverage and automobile liability insurance to the Partnership. These costs were not material during the three months ended December 31, 2023 and 2022.

Propane Purchases and Sales. AmeriGas OLP purchases propane on an as needed basis from Energy Services. The price of the purchases is generally based on market price at the time of purchase. There were no purchases of propane by AmeriGas OLP from Energy Services during the three months ended December 31, 2023 and 2022.

In addition, AmeriGas OLP sells propane to affiliates of UGI. There were no sales of propane to affiliates of UGI during the three months ended December 31, 2023 and 2022.

The following related party transactions are included in "Operating and administrative expenses" on the Condensed Consolidated Statements of Operations:

	Three Months Ended December 31,	
	2023	2022
Partnership and Management Services Agreement:		
Direct and indirect expenses incurred on behalf of the Partnership	\$ 133	\$ 125
Administrative Services:		
Administrative services provided by UGI	\$ 5	\$ 6

Contribution from Parent. There were no contributions to the Partnership during the three months ended December 31, 2023. During the three months ended December 31, 2022, UGI, through its operating subsidiaries, contributed \$16 in cash to the Partnership. The Partnership used these funds to reduce short-term borrowings.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Information contained in this Quarterly Report contains forward-looking statements. Such statements use forward-looking words such as "believe," "plan," "anticipate," "continue," "estimate," "expect," "may," or other similar words and terms of similar meaning, although not all forward-looking statements contain such words. These statements discuss plans, strategies, events or developments that we expect or anticipate will or may occur in the future.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We believe that we have chosen these assumptions or bases in good faith and that they are reasonable. However, we caution you against relying on any forward-looking statement as these statements are subject to risks and uncertainties that may cause actual results to vary from assumed facts or bases, and the differences between actual results and assumed facts or bases can be material, depending on the circumstances. When considering forward-looking statements, you should keep in mind those factors set forth in the Risk Factors section in the Partnership's 2023 Annual Report and the following important factors that could affect our future results and could cause those results to differ materially from those expressed in our forward-looking statements: (1) weather conditions, including increasingly uncertain weather patterns due to climate change, resulting in reduced demand, the seasonal nature of our business, and disruptions in our operations and supply chain; (2) cost volatility and availability of propane, as well as the availability of propane cylinders, and the capacity to transport propane to our customers; (3) the availability of, and our ability to consummate, acquisition or combination opportunities; (4) successful integration and future performance of acquired assets or businesses and achievement of anticipated synergies; (5) changes in laws and regulations, including safety, health, tax, transportation, consumer protection, data privacy, accounting, and environmental matters, such as regulatory responses to climate change; (6) competitive pressures from the same and alternative energy sources; (7) failure to acquire new customers or retain current customers thereby reducing or limiting any increase in revenues; (8) liability for environmental claims; (9) increased customer conservation measures due to high propane prices resulting in reduced demand; (10) our ability to attract, develop, retain and engage key employees; (11) customer, counterparty, supplier, or vendor defaults; (12) liability for uninsured claims and for claims in excess of insurance coverage, including those for personal injury and property damage arising from explosions, acts of war, terrorism, natural disasters, pandemics and other catastrophic events that may result from operating hazards and risks incidental to transporting, storing and distributing propane; (13) political, regulatory and economic conditions in the United States; (14) credit and capital market conditions, including reduced access to capital markets and interest rate fluctuations; (15) changes in commodity market prices resulting in significantly higher cash collateral requirements; (16) the impact of pending and future legal or regulatory proceedings, inquiries or investigations; (17) the availability, timing, and success of our acquisitions, commercial initiatives and investments to grow our business; (18) the interruption, disruption, failure, malfunction, or breach of our information technology systems, and those of our third-party vendors or service providers, including due to cyber attack; (19) our ability to achieve the operational benefits and cost efficiencies expected from the completion of pending and future business transformation initiatives, including the impact of customer service disruptions resulting in potential customer loss due to the transformation activities; (20) uncertainties related to global pandemics; (21) our ability to protect our intellectual property; and (22) our ability to overcome supply chain issues that may result in delays or shortages in, as well as increased costs of, equipment, materials or other resources that are critical to our business operations.

These factors, and those factors set forth in the Risk Factors section in the Partnership's 2023 Annual Report are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results. Any forward-looking statement speaks only as of the date on which such statement is made. We undertake no obligation (and expressly disclaim any obligation) to update any forward-looking statement whether as a result of new information or future events.

ANALYSIS OF RESULTS OF OPERATIONS

The following analyses compare the Partnership's results of operations for the 2023 three-month period with the 2022 three-month period.

Our results are significantly influenced by temperatures in our service territories particularly during the heating season months of October through March. As a result, our operating results, after adjusting for the effects of gains and losses on commodity derivative instruments not associated with current-period transactions as further discussed below, are significantly higher in our first and second fiscal quarters.

Non-GAAP Financial Measures

AmeriGas Partners' management presents the non-GAAP measures "adjusted net income," "adjusted total margin," and "adjusted operating income" in order to assist in the evaluation of the Partnership's overall performance. Management believes that these non-GAAP measures provide meaningful information to investors about AmeriGas Partners' performance because they eliminate the impact of (1) changes in unrealized gains and losses on commodity derivative instruments not associated with current-period transactions and (2) other significant discrete items that can affect the comparison of period-over-period results. Non-GAAP financial measures are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not as a substitute for, the comparable GAAP measures.

AmeriGas Partners does not designate its commodity derivative instruments as hedges under GAAP. As a result, volatility in net income can occur as gains and losses on commodity derivative instruments not associated with current-period transactions, principally comprising non-cash changes in unrealized gains and losses, are reflected in cost of sales. However, we expect that such gains and losses on such derivative instruments will be largely offset by gains and losses on anticipated future commodity purchases.

The following table includes reconciliations of adjusted total margin, adjusted operating income, and adjusted net income to the most directly comparable financial measures calculated and presented in accordance with GAAP for the periods presented:

(Dollars in millions)	Three Months Ended December 31,	
	2023	2022
Adjusted total margin:		
Total revenues	\$ 629	\$ 766
Cost of sales — propane	(270)	(383)
Cost of sales — other	<u>(19)</u>	<u>(27)</u>
Total margin	\$ 340	\$ 356
Add net losses on commodity derivative instruments not associated with current-period transactions	6	12
Adjusted total margin	<u>\$ 346</u>	<u>\$ 368</u>
Adjusted operating income:		
Operating income	\$ 57	\$ 71
Add net losses on commodity derivative instruments not associated with current-period transactions	6	12
AmeriGas operations enhancement for growth project	<u>7</u>	<u>7</u>
Adjusted operating income	<u>\$ 70</u>	<u>\$ 90</u>
Adjusted net income:		
Net income	\$ 16	\$ 28
Add net losses on commodity derivative instruments not associated with current-period transactions	6	12
AmeriGas operations enhancement for growth project	<u>7</u>	<u>7</u>
Adjusted net income	<u>\$ 29</u>	<u>\$ 47</u>

Executive Overview

Recent Developments

Global Macroeconomic Conditions. Beginning in Fiscal 2021 and continuing through December 31, 2023, commodity and labor markets have experienced significant inflationary pressures attributable to various economic and political factors, including but not limited to: supply chain disruptions including those associated with labor shortages; significant volatility in energy commodity prices; and changes in consumer behavior. These adverse macroeconomic factors continue to contribute to inflationary pressures as evidenced by increases in various consumer price indices. In an effort to curb these inflationary pressures, the Federal Reserve began raising interest rates in Fiscal 2022. In addition, during the last several years, we have experienced significant volatility in energy commodity prices, particularly in propane prices, which have resulted in substantial fluctuations in the fair values of our commodity derivative instruments. Although these inflationary pressures and commodity price volatility have moderated more recently, they continue to result in, among other things, fluctuations in the cost of our inventory and associated cost of sales, increases in certain operating and distribution expenses and higher interest expense. We cannot predict the duration or ultimate magnitude of these conditions and the effects such conditions may have on our future business, financial results, financial position, liquidity and cash flows. However, we believe that the Partnership is well positioned to address the challenges resulting from these economic and political conditions as they continue to evolve.

2023 three-month period compared with 2022 three-month period

Net income for the 2023 three-month period was \$16 million compared with \$28 million in the prior-year period. Net income in the 2023 and 2022 three-month periods reflect (1) the effects of net unrealized losses on commodity derivative instruments not associated with current-period transactions of \$6 million and \$12 million, respectively; and (2) external advisory fees of \$7 million in each period associated with AmeriGas operations enhancement for growth project.

Adjusted net income for the 2023 three-month period was \$29 million compared with \$47 million in the prior-year period. The decrease principally reflects lower total adjusted margin largely attributable to lower retail propane volumes sold, partially offset by the benefit of higher average retail propane unit margins in the 2023 three-month period.

RESULTS OF OPERATIONS

2023 three-month period compared with the 2022 three-month period

Three Months Ended December 31,	2023	2022	Increase (Decrease)
(Dollars and gallons in millions)			
Gallons sold:			
Retail	206	236	(30) (13)%
Wholesale	23	47	(24) (51)%
	<u>229</u>	<u>283</u>	<u>(54)</u> (19)%
Revenues:			
Retail propane	\$ 533	\$ 634	\$ (101) (16)%
Wholesale propane	22	51	(29) (57)%
Other	74	81	(7) (9)%
	<u>\$ 629</u>	<u>\$ 766</u>	<u>\$ (137)</u> (18)%
Total margin (a)	\$ 340	\$ 356	\$ (16) (4)%
Operating and administrative expenses	\$ 250	\$ 251	\$ (1) — %
Depreciation and amortization	\$ 44	\$ 44	\$ — — %
Operating income	\$ 57	\$ 71	\$ (14) (20)%
Net income	\$ 16	\$ 28	\$ (12) (43)%
Non-GAAP financial measures (b):			
Adjusted total margin	\$ 346	\$ 368	\$ (22) (6)%
Adjusted operating income	\$ 70	\$ 90	\$ (20) (22)%
Adjusted net income	\$ 29	\$ 47	\$ (18) (38)%
Heating degree days — % (warmer) colder than normal (c)	(6.4)%	6.2 %	— —

- (a) Total margin represents total revenues less “Cost of sales — propane” and “Cost of sales — other.” Total margin for the 2023 and 2022 three-month periods include the impact of net unrealized losses of \$6 million and \$12 million, respectively, on commodity derivative instruments not associated with current-period transactions.
- (b) These financial measures are non-GAAP financial measures and are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not a substitute for, the comparable GAAP measures. See section “Non-GAAP Financial Measures” above.
- (c) Deviation from average heating degree days is determined on a rolling 10-year period utilizing volume-weighted weather data based on weather statistics provided by NOAA for 344 regions in the U.S., excluding Alaska and Hawaii.

Average temperatures during the 2023 three-month period were 6.4% warmer than normal and 12.0% warmer than the prior-year period. Total retail gallons sold decreased 13% during the 2023 three-month period primarily due to continuing customer attrition and the effects of the significantly warmer weather.

Average daily wholesale propane commodity prices during the 2023 three-month period at Mont Belvieu, Texas, one of the major supply points in the U.S., were approximately 17% lower than such prices during the 2022 three-month period. Total revenues decreased \$137 million during the 2023 three-month period largely reflecting the lower retail volumes sold (\$81 million), lower wholesale revenues (\$29 million) and the effects of lower average retail propane selling prices (\$21 million).

Total cost of sales during the 2023 three-month period decreased \$121 million compared to the prior-year period. Cost of sales in the 2023 and 2022 three-month periods include net unrealized losses of \$6 million and \$12 million, respectively, on commodity derivative instruments not associated with current-period transactions. Excluding the effects on cost of sales of these commodity derivative instruments, total cost of sales decreased \$115 million during the 2023 three-month period largely reflecting the lower retail propane volumes sold (\$41 million), lower wholesale cost of sales (\$29 million) and the lower retail propane product costs (\$37 million).

[Table of Contents](#)

Total margin decreased \$16 million during the 2023 three-month period. Adjusted total margin in the 2023 three-month period decreased \$22 million largely attributable to the lower retail propane volumes sold (\$40 million), partially offset by higher average retail propane unit margins (\$16 million).

Operating income decreased \$14 million compared to the prior-year period. Adjusted operating income decreased \$20 million during the 2023 three-month period, primarily reflecting the decrease in adjusted total margin (\$22 million), partially offset by slightly lower operating and administrative expenses (\$1 million).

Net income decreased \$12 million compared to the prior-year period. Adjusted net income decreased \$18 million during the 2023 three-month period primarily reflecting the previously mentioned decrease in adjusted operating income (\$20 million), partially offset by slightly lower interest expense (\$2 million).

FINANCIAL CONDITION AND LIQUIDITY

The Partnership expects to have sufficient liquidity, including cash on hand and available credit agreement borrowings, to continue to support long-term commitments and ongoing operations despite uncertainties associated with ongoing global macroeconomic conditions including, among others, changes in consumer behavior, the inflationary cost environment and ongoing energy commodity price volatility. The Partnership does not have any near-term senior note maturities. The Partnership cannot predict the duration or total magnitude of the uncertain economic factors mentioned above and the total effects they will have on its liquidity, debt covenants, financial condition or the timing of capital expenditures. The Partnership was in compliance with its debt covenants as of December 31, 2023. See Note 5 to the Condensed Consolidated Financial Statements and “Significant Financing Activities” below for additional information on the equity cure provision.

The Partnership’s cash and cash equivalents at December 31, 2023 and September 30, 2023 were \$55 million and \$48 million, respectively. The Partnership’s debt outstanding at December 31, 2023 and September 30, 2023, totaled \$2,386 million and \$2,385 million, respectively. There were no current maturities of long-term debt or short-term borrowings at December 31, 2023 and September 30, 2023. Total long-term debt outstanding at December 31, 2023, comprises \$2,400 million of AmeriGas Partners’ senior notes and is net of \$14 million of unamortized debt issuance costs.

At December 31, 2023, there were no borrowings outstanding under the 2022 AmeriGas OLP Credit Agreement. At December 31, 2022, there were \$148 million of borrowings outstanding under the 2022 AmeriGas OLP Credit Agreement. Issued and outstanding letters of credit under the 2022 AmeriGas OLP Credit Agreement, which reduce the amounts available for borrowings, totaled \$2 million and \$2 million at December 31, 2023 and 2022, respectively. The average daily and peak short-term borrowings outstanding under the 2022 AmeriGas OLP Credit Agreement during the 2023 three-month period were \$1 million and \$25 million, respectively. The average daily and peak short-term borrowings outstanding under the 2022 AmeriGas OLP Credit Agreement during the 2022 three-month period were \$199 million and \$242 million, respectively. At December 31, 2023 and 2022, the Partnership’s available borrowing capacity under the 2022 AmeriGas OLP Credit Agreement was \$398 million and \$450 million, respectively.

Significant Financing Activities

The following significant financing activities occurred during the three-months ended December 31, 2023.

2022 AmeriGas OLP Credit Agreement. Under the 2022 AmeriGas OLP Credit Agreement, AmeriGas OLP, as borrower, is required to comply with financial covenants related to leverage and interest coverage measured at the Partnership and at AmeriGas OLP. The 2022 AmeriGas OLP Credit Agreement contains an equity cure provision, which allows AmeriGas OLP’s direct or indirect parent, including UGI and its other subsidiaries, to fund capital contributions to eliminate any EBITDA (as defined in the 2022 AmeriGas OLP Credit Agreement) shortfalls that would otherwise result in non-compliance with these financial covenants. Each equity cure is eligible to eliminate such EBITDA shortfalls up to four quarters after contribution. We are permitted to use the equity cure provision five times over the course of the Credit Agreement, twice during any rolling four-quarter period, and not in consecutive quarters.

UGI made capital contributions to AmeriGas OLP during Fiscal 2023, which in aggregate represented one equity cure that is eligible to eliminate any EBITDA shortfalls through December 31, 2023, in accordance with the 2022 AmeriGas OLP Credit Agreement. As a result of such capital contributions, AmeriGas OLP and the Partnership were in compliance with all financial covenants after consideration of the equity cure provision as of December 31, 2023.

[Table of Contents](#)

UGI also provided an irrevocable letter of support whereby UGI has committed to fund any such EBITDA shortfalls and debt service, if any. Based on the support and the projected EBITDA, AmeriGas OLP is expected to remain in compliance with its financial debt covenants for the succeeding twelve-month period.

On November 15, 2023, the Partnership entered into an amendment to the 2022 AmeriGas OLP Credit Agreement, which amends certain provisions of the credit agreement to, among other things, (i) reduce the maximum revolver amount from \$600 million to \$400 million, (ii) reduce the minimum interest coverage ratio, effective for the fourth quarter of Fiscal 2023 through the end of Fiscal 2024 and (iii) provide that, beginning for the first quarter of Fiscal 2025, the minimum interest coverage ratio will remain reduced if the net leverage ratio is below a certain threshold as defined by the agreement; if the net leverage ratio exceeds such threshold, the minimum interest coverage ratio will revert to the original ratio as defined by the agreement.

Cash Flows

Operating activities. Due to the seasonal nature of the Partnership's business, cash flows from operating activities are generally greatest during the second and third fiscal quarters when customers pay for propane consumed during the heating-season months. Conversely, operating cash flows are generally at their lowest levels during the first and fourth fiscal quarters when the Partnership's investment in working capital, principally accounts receivable and inventories, is generally greatest. The Partnership may use its 2022 AmeriGas OLP Credit Agreement to satisfy its seasonal operating cash flow needs.

Cash flow provided by operating activities was \$15 million in the 2023 three-month period compared to cash flow used by operating activities of \$19 million in the 2022 three-month period. Cash flow from operating activities before changes in operating working capital was \$76 million in the 2023 three-month period compared to \$103 million in the prior-year period. The lower cash flow from operating activities before changes in operating working capital principally reflects the decrease in operating results in the 2023 three-month period. Cash used to fund changes in operating working capital was \$61 million in the 2023 three-month period compared to cash used of \$122 million in the 2022 three-month period. The lower cash used to fund changes in operating working capital in the 2023 three-month period reflects, among other things, the effects on changes in accounts receivable and inventories due in large part to the lower propane volumes sold and lower commodity propane commodity prices, and the timing of payment of accounts payable.

Investing activities. Investing activity cash flow principally comprises expenditures for property, plant and equipment and proceeds from disposals of assets. Cash flow used by investing activities was \$8 million in the 2023 three-month period compared with cash used of \$16 million in the prior-year period. This decrease primarily reflects higher cash proceeds from disposals of assets and a slight decrease in capital expenditures during the 2023 three-month period.

Financing activities. Financing activity cash flow principally comprises cash contributions and distributions, issuances and repayments of long-term debt, and short-term borrowings/repayments. There were no financing cash flow transactions during the 2023 three-month period. Cash provided by financing activities during the 2022 three-month period was \$33 million comprising a cash contribution of \$16 million and net short-term borrowings of \$17 million.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary financial market risks include commodity prices for propane. Although we use derivative financial and commodity instruments to reduce market price risk associated with forecasted transactions, we do not use derivative financial and commodity instruments for speculative or trading purposes.

Commodity Price Risk

The risk associated with fluctuations in the prices the Partnership pays for propane is principally a result of market forces reflecting changes in supply and demand for propane and other energy commodities. The Partnership's profitability is sensitive to changes in propane supply costs and the Partnership generally passes on increases in such costs to customers. The Partnership may not, however, always be able to pass through product cost increases fully, or on a timely basis, particularly when product costs rise rapidly. In order to reduce the volatility of the Partnership's propane market price risk, we use contracts for the forward purchase or sale of propane, propane fixed-price supply agreements, and over-the-counter derivative commodity instruments including price swap contracts. Over-the-counter derivative commodity instruments utilized by the Partnership to hedge forecasted purchases of propane are generally settled at expiration of the contract. These derivative financial instruments contain collateral provisions.

In addition, the Partnership from time to time enters into diesel swap contracts for a portion of diesel volumes expected to be used in the operation of vehicles and equipment. The Partnership also enters into steel swaps to reduce price volatility associated with its portable cylinder purchases. The volumes associated with diesel and steel swap contracts were not material for all periods presented.

The fair value of unsettled commodity price risk sensitive instruments at December 31, 2023, was a net loss of \$33 million. A hypothetical 10% adverse change in the market price of certain commodities would result in a decrease in such fair value of approximately \$20 million.

Derivative Instruments Credit Risk

The Partnership is exposed to credit loss in the event of nonperformance by our derivative instrument counterparties. Our derivative instrument counterparties principally comprise major energy companies and major U.S. financial institutions. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by the Partnership in the forms of letters of credit, parental guarantees or cash.

We have concentrations of credit risk associated with derivative instruments and we evaluate the creditworthiness of our derivative counterparties on an ongoing basis. As of December 31, 2023, the maximum amount of loss, based upon the gross fair values of the derivative instruments, we would incur if these counterparties failed to perform according to the terms of their contracts was \$1 million. At December 31, 2023, the Partnership had received no cash collateral from derivative instrument counterparties. In addition, we may have offsetting derivative liabilities and certain accounts payable balances with certain of these counterparties, which further mitigates the previously mentioned maximum amount of losses. Certain of our derivative contracts have credit-risk-related contingent features that may require the posting of additional collateral in the event of a downgrade in the Partnership's debt rating. At December 31, 2023, if the credit-risk-related contingent features were triggered, the amount of collateral required to be posted would not be material.

CONTROLS AND PROCEDURES

(a) The General Partner's disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by the Partnership in this Quarterly Report is (i) recorded, processed, summarized, and reported within the time periods specified in the indentures, and (ii) accumulated and communicated to our management, including the Interim President, as appropriate to allow timely decisions regarding required disclosure. The General Partner's management, with the participation of the General Partner's Interim President, evaluated the effectiveness of the Partnership's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Interim President concluded that the Partnership's disclosure controls and procedures, as of the end of the period covered by this report, were effective at the reasonable assurance level.

(b) Evaluation of Disclosure Controls and Procedures

The Partnership's management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with accounting principles generally accepted in the United States of America. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

(c) Change in Internal Control over Financial Reporting

No change in the Partnership's internal control over financial reporting occurred during the Partnership's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Partnership's internal control over financial reporting.

LEGAL PROCEEDINGS

The information set forth in Note 6, Commitments and Contingencies to our Condensed Consolidated Financial Statements included in this Report, is incorporated herein by reference.

RISK FACTORS

In addition to the information presented in this Report, you should carefully consider the factors discussed in "Risk Factors" in our 2023 Annual Report, which could materially affect our business, financial condition or future results. The risks described in our 2023 Annual Report are not the only risks facing the Partnership. Other unknown or unpredictable factors could also have material adverse effects on future results.

EXHIBIT INDEX

- 31.1 Certification by the Interim President.
- 31.2 Certification by the Chief Operations Officer.
- 32 Certification by the Interim President and the Chief Operations Officer.

SIGNATURES

The Partnership has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

AMERIGAS PARTNERS, L.P.

CERTIFICATION

I, Raymond J. Kaszuba, certify that:

1. I have reviewed this quarterly report of AmeriGas Partners, L.P. (the "Company");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report;
4. The Company's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the Company and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the Company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter (the Company's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The Company's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Company's auditors:
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting.

Robert F. Beard
Chief Operations Officer

**Certification by the Interim President and Chief Operations Officer
Relating to a Periodic Report Containing Financial Statements**

I, Raymond J. Kaszuba, Interim President, and I, Robert F. Beard, Chief Operations Officer, of AmeriGas Propane, Inc., a Pennsylvania corporation, the General Partner of AmeriGas Partners, L.P. (the “Company”), hereby certify that to our knowledge:

- (1) The Company’s quarterly for the period ended December 31, 2023 (the “Quarterly Report”) fully complies, in all material respects, with the requirements of the indentures; and
- (2) The information contained in the Quarterly Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

INTERIM PRESIDENT

/s/ Raymond J. Kaszuba
