

**AMERIGAS PARTNERS, L.P.
AND SUBSIDIARIES
QUARTERLY REPORT**

for the three and six months ended March 31, 2026 and 2025

AmeriGas Partners, L.P. (“AmeriGas Partners”) is an indirect, wholly owned subsidiary of UGI Corporation (“UGI”), with no class of securities registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). As a result, AmeriGas Partners is not subject to the current and periodic reporting requirements of the Exchange Act. This quarterly report is provided to bondholders for informational purposes only pursuant to contractual requirements under certain indentures governing the rights of bondholders, and shall not constitute an offer to sell or the solicitation of an offer to buy any securities. As a result, none of UGI, AmeriGas Partners nor any of their respective affiliates accepts, and each specifically disclaims, any liability under federal securities laws whatsoever in connection with the provision of this quarterly report, including any liability under the Exchange Act or the Securities Act of 1933, as amended.

GLOSSARY OF TERMS AND ABBREVIATIONS

Terms and abbreviations used in this Quarterly Report are defined below:

AmeriGas Partners, L.P. and Related Entities

AmeriGas OLP - AmeriGas Propane, L.P., the principal operating subsidiary of AmeriGas Partners

AmeriGas Partners - AmeriGas Partners, L.P., a Delaware limited partnership and an indirect wholly owned subsidiary of UGI

Energy Services - UGI Energy Services, LLC, a wholly owned subsidiary of Enterprises

Enterprises - UGI Enterprises, LLC, a wholly owned subsidiary of UGI

General Partner - AmeriGas Propane, Inc., an indirect wholly owned subsidiary of UGI and the general partner of AmeriGas Partners

Partnership - AmeriGas Partners and its consolidated subsidiaries, including AmeriGas OLP

UGI - UGI Corporation or, collectively, UGI Corporation and its consolidated subsidiaries

UGI International - UGI International, LLC, a wholly owned subsidiary of Enterprises

Other Terms and Abbreviations

2025 Annual Report - AmeriGas Partners' Annual Report for the fiscal year ended September 30, 2025

2025 six-month period - Six months ended March 31, 2025

2025 three-month period - Three months ended March 31, 2025

2026 six-month period - Six months ended March 31, 2026

2026 three-month period - Three months ended March 31, 2026

AmeriGas Senior Secured Revolving Credit Facility - Revolving credit agreement entered into by AmeriGas OLP on August 2, 2024 and scheduled to expire in August 2029

ASC - Accounting Standards Codification

ASC 606 - ASC 606, "Revenue from Contracts with Customers"

FDIC - Federal Deposit Insurance Corporation

Fiscal 2025 - The fiscal year ended September 30, 2025

Fiscal 2026 - The fiscal year ending September 30, 2026

GAAP - U.S. generally accepted accounting principles

MGP - Manufactured gas plant

NOAA - National Oceanic and Atmospheric Administration

NPNS - Normal purchase and normal sale

NYDEC - New York State Department of Environmental Conservation

PRP - Potentially responsible party

ROD - Record of Decision

U.S. - United States of America

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

Note 1 — Nature of Operations

AmeriGas Partners conducts a national propane distribution business through its principal operating subsidiary AmeriGas OLP. AmeriGas Partners and AmeriGas OLP are Delaware limited partnerships. AmeriGas OLP is engaged in the distribution of propane and related equipment and supplies. AmeriGas OLP comprises the largest retail propane distribution business in the U.S. based on the volume of propane gallons distributed annually, serving residential, commercial, industrial, motor fuel and agricultural customers.

UGI's wholly owned second-tier subsidiary, AmeriGas Propane, Inc. serves as the general partner of AmeriGas Partners. AmeriGas Propane GP, LLC, a wholly owned subsidiary of AmeriGas Partners, is the general partner of AmeriGas OLP.

AmeriGas Partners and AmeriGas OLP have no employees. Employees of the General Partner conduct, direct and manage our operations. The General Partner is reimbursed monthly for all direct and indirect expenses it incurs on the Partnership's behalf (see Note 10).

Note 2 — Summary of Significant Accounting Policies

The accompanying condensed consolidated financial statements are unaudited and have been prepared in accordance with GAAP. They include all adjustments which we consider necessary for a fair statement of the results for the interim periods presented. Such adjustments consist only of normal recurring items unless otherwise disclosed. The September 30, 2025, Condensed Consolidated Balance Sheet was derived from audited financial statements but does not include all footnote disclosures from the annual financial statements.

These financial statements should be read in conjunction with the financial statements and related notes included in the Partnership's 2025 Annual Report. Weather significantly impacts demand for propane and profitability because many customers use propane for heating purposes. Due to the seasonal nature of the Partnership's propane business, the results of operations for interim periods are not necessarily indicative of the results to be expected for a full year.

Derivative Instruments. Derivative instruments are reported on the Condensed Consolidated Balance Sheets at their fair values, unless the NPNS exception is elected. The accounting for changes in fair value depends upon the purpose of the derivative instrument and whether it qualifies and is designated as a hedge for accounting purposes. We do not currently have derivative instruments that are designated and qualify as cash flow hedges. Changes in the fair values of our commodity derivative instruments that are not subject to the NPNS exception are reflected in "Cost of sales — propane" on the Condensed Consolidated Statements of Operations. Cash flows from commodity derivative instruments are included in cash flows from operating activities on the Condensed Consolidated Statements of Cash Flows.

For a more detailed description of the derivative instruments we use, our accounting for derivatives, our objectives for using them and other information, see Note 9.

Goodwill. We do not amortize goodwill, but test it at least annually for impairment at the reporting unit level. A reporting unit is an operating segment, or one level below an operating segment (a component) if it constitutes a business for which discrete financial information is available and regularly reviewed by segment management. Components are aggregated into a single reporting unit if they have similar economic characteristics. A reporting unit with goodwill is required to perform an impairment test annually or whenever events or circumstances indicate that the value of goodwill may be impaired.

With respect to the Partnership's Fiscal 2025 goodwill impairment test, the Partnership performed a quantitative assessment. Based on our evaluation, we determined that the Partnership's fair value exceeded its carrying value by more than 25%. While the Partnership believes that its judgments used in the quantitative assessment of its fair value are reasonable based upon currently available facts and circumstances, if the Partnership were not able to achieve its anticipated results and/or if its discount rate were to increase, its fair value would be adversely affected, which may result in an impairment. There was \$1.1 billion of goodwill as of March 31, 2026.

The Partnership will continue to monitor goodwill for any possible future non-cash impairment charges.

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

Use of Estimates. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and costs. These estimates are based on management’s knowledge of current events, historical experience and various other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results may be different from these estimates and assumptions.

Subsequent Events. Management has evaluated the impact of subsequent events through May 7, 2026, the date these condensed consolidated financial statements were issued and the effects, if any, of such evaluation have been reflected in the condensed consolidated financial statements and related disclosures.

Note 3 — Accounting Changes

Accounting Standards Not Yet Adopted

Interim Reporting: Narrow-Scope Improvements. In December 2025, the FASB issued ASU 2025-11, “Narrow-Scope Improvements (Topic 270)” which clarifies disclosure requirements and applicability for interim financial statements. This new guidance is effective for the Partnership for interim periods beginning October 1, 2029 (Fiscal 2030). Early adoption is permitted. The amendments in this ASU may be adopted using the prospective or retrospective methods. The Partnership is in the process of assessing the impact on its financial statements and determining the transition method and the period in which the new guidance will be adopted.

Targeted Improvements to the Accounting for Internal-Use Software. In September 2025, the FASB issued ASU 2025-06, “Targeted Improvements to the Accounting for Internal-Use Software (Subtopic 350-40)” which, among other things, removes the prescriptive project stage requirements and allows entities to capitalize internal-use software costs when management authorizes and commits funding to the project and it is probable the software will be completed and used as intended. This new guidance is effective for the Partnership for annual and interim periods beginning October 1, 2028 (Fiscal 2029). Early adoption is permitted. The amendments in this ASU may be adopted using the prospective, modified, or retrospective methods. The Partnership is in the process of assessing the impact on its financial statements and determining the transition method and the period in which the new guidance will be adopted.

Measurement of Credit Losses for Accounts Receivable and Contract Assets. In July 2025, the FASB issued ASU 2025-05, “Measurement of Credit Losses for Accounts Receivable and Contract Assets (Topic 326)” which provides a practical expedient that allows entities to assume that current conditions as of the balance sheet date do not change for the remaining life of the asset when estimating expected credit losses for current accounts receivable and current contract assets. This new guidance is effective for the Partnership for annual and interim periods beginning October 1, 2026 (Fiscal 2027). Early adoption is permitted. The amendments in this ASU should be adopted using the prospective method. The Partnership is in the process of assessing the impact on its financial statements and the period in which the new guidance will be adopted.

Note 4 — Revenue from Contracts with Customers

We recognize revenue when control of the promised goods or services is transferred to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. See Note 4 in the Partnership’s 2025 Annual Report for additional information on our revenues from contracts with customers.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

Revenue Disaggregation

The following table presents our disaggregated revenues:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2026	2025	2026	2025
<u>Revenues from contracts with customers:</u>				
Propane:				
Retail	\$ 685	\$ 749	\$ 1,211	\$ 1,282
Wholesale	14	35	24	57
Other	43	49	87	99
Total revenues from contracts with customers	742	833	1,322	1,438
Other revenues (a)	17	15	37	37
Total revenues	\$ 759	\$ 848	\$ 1,359	\$ 1,475

(a) Primarily represents revenues from tank rentals that are not within the scope of ASC 606 and accounted for in accordance with other GAAP.

Contract Balances

The timing of revenue recognition may differ from the timing of invoicing to customers or cash receipts. Contract assets represent the Partnership's right to consideration after the performance obligations have been satisfied when such right is conditioned on something other than the passage of time. Contract assets were not material for all periods presented. Substantially all of the Partnership's receivables are unconditional rights to consideration and are included in "Accounts receivable" on the Condensed Consolidated Balance Sheets. Amounts billed are generally due within the following month.

Contract liabilities arise when payment from a customer is received before the performance obligations have been satisfied and represent the Partnership's obligations to transfer goods or services to a customer for which the Partnership has received consideration from the customer. The balances of contract liabilities were \$38, \$63 and \$45 at March 31, 2026, September 30, 2025 and March 31, 2025, respectively, and are included in "Customer deposits and advances" on the Condensed Consolidated Balance Sheets. Revenues recognized during the six months ended March 31, 2026 and 2025, from the amounts included in contract liabilities at September 30, 2025 and 2024, were \$36 and \$43, respectively.

Remaining Performance Obligations

The Partnership excludes disclosures related to the aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied as of the end of the reporting period because these contracts have an initial expected term of one year or less or we have a right to bill the customer in an amount that corresponds directly with the value of services provided to the customer to date.

Note 5 — Inventories

Inventories comprise the following:

	March 31, 2026	September 30, 2025	March 31, 2025
Propane gas	\$ 93	\$ 89	\$ 110
Materials, supplies and other	50	40	38
Total inventories	\$ 143	\$ 129	\$ 148

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

Note 6 — Debt

The following significant financing activities occurred during Fiscal 2026.

During the first quarter of Fiscal 2026, the Partnership repaid \$50 of borrowings outstanding on the intercompany loan. As of March 31, 2026, the remaining \$150 of borrowings outstanding was classified as “Current maturities of long-term debt” on the Condensed Consolidated Balance Sheet, as the loan matures in January 2027. See the Partnership’s 2025 Annual Report for additional information on the intercompany loan.

Supplemental Cash Flow Information

The Partnership regularly uses its credit facilities to support its working capital needs with borrowings of \$244 and repayments of \$244 during the six months ended March 31, 2026.

Note 7 — Commitments and Contingencies

Saranac Lake Environmental Matter. In 2008, the NYDEC notified AmeriGas OLP that the NYDEC had placed property purportedly owned by AmeriGas OLP in Saranac Lake, New York on the New York State Registry of Inactive Hazardous Waste Disposal Sites. A site characterization study performed by the NYDEC disclosed contamination related to a former MGP. AmeriGas OLP responded to the NYDEC in 2009 to dispute the contention it was a PRP as it did not operate the MGP and appeared to only own a portion of the site. In 2017, the NYDEC communicated to AmeriGas OLP that the NYDEC had previously issued three RODs related to remediation of the site totaling approximately \$28 and requested additional information regarding AmeriGas OLP’s purported ownership. AmeriGas OLP renewed its challenge to designation as a PRP and identified potential defenses. The NYDEC subsequently identified a third party PRP with respect to the site.

The NYDEC commenced implementation of the remediation plan in the spring of 2018. In Fiscal 2024, the NYDEC informed AmeriGas OLP that the remediation plan had been completed at a total cost of approximately \$19. The New York Office of the Attorney General, as counsel for the NYDEC, invited AmeriGas OLP to participate in settlement discussions. We have a settlement agreement in principle that is being finalized.

In addition to the matter described above, there are other pending claims and legal actions arising in the normal course of our business. Although we cannot predict the final results of these pending claims and legal actions, we believe, after consultation with counsel, that the final outcome of these matters will not have a material effect on our financial statements.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

Note 8 — Fair Value Measurements

Recurring Fair Value Measurements

The following table presents on a gross basis our derivative assets and liabilities including both current and noncurrent portions, that are measured at fair value on a recurring basis within the fair value hierarchy:

	Asset (Liability)			
	Level 1	Level 2	Level 3	Total
March 31, 2026:				
Assets:				
Commodity contracts	\$ —	\$ 12	\$ —	\$ 12
September 30, 2025:				
Assets:				
Commodity contracts	\$ —	\$ 1	\$ —	\$ 1
Liabilities:				
Commodity contracts	\$ —	\$ (7)	\$ —	\$ (7)
March 31, 2025:				
Assets:				
Commodity contracts	\$ —	\$ 4	\$ —	\$ 4

The fair values of our non-exchange traded commodity derivative contracts included in Level 2 are based upon indicative price quotations available through brokers, industry price publications or recent market transactions and related market indicators.

Other Financial Instruments

The carrying amounts of other financial instruments included in current assets and current liabilities (except for current maturities of long-term debt) approximate their fair values because of their short-term nature. We estimate the fair value of long-term debt by using current market rates and by discounting future cash flows using rates available for similar type debt (Level 2). The carrying amounts and estimated fair values of our long-term debt (including current maturities but excluding unamortized debt issuance costs) were as follows:

	March 31, 2026	September 30, 2025	March 31, 2025
Carrying amount	\$ 1,705	\$ 1,755	\$ 1,869
Estimated fair value	\$ 1,755	\$ 1,796	\$ 1,843

Financial instruments other than derivative instruments, such as short-term investments and trade accounts receivable, could expose us to concentrations of credit risk. We limit credit risk from short-term investments by investing only in investment-grade commercial paper, money market mutual funds, securities guaranteed by the U.S. Government or its agencies and FDIC insured bank deposits. The credit risk arising from concentrations of trade accounts receivable is limited because we have a large customer base that extends across many different U.S. markets. See Note 9 for information regarding concentrations of credit risk associated with our derivative instruments.

Note 9 — Derivative Instruments and Hedging Activities

The Partnership is exposed to certain market risks associated with its ongoing business operations. Management uses derivative financial and commodity instruments, among other things, primarily to manage commodity price risk. Although we use derivative financial and commodity instruments to reduce market risk associated with forecasted transactions, we do not use derivative financial and commodity instruments for speculative or trading purposes. The use of derivative instruments is controlled by our risk management and credit policies which govern, among other things, the derivative instruments the Partnership can use, counterparty credit limits and contract authorization limits. Although our commodity derivative instruments extend over a number of years, a significant portion of our commodity derivative instruments economically hedge

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

commodity price risk during the next twelve months. See Note 2 for additional information on the accounting for our derivative instruments.

Commodity Price Risk

In order to manage market risk associated with the Partnership's fixed-price programs, the Partnership uses over-the-counter derivative commodity instruments, principally price swap contracts. In addition, the Partnership, from time to time, enters into price swap agreements to reduce the effects of short-term commodity price volatility. At March 31, 2026, September 30, 2025 and March 31, 2025, total volumes associated with propane commodity derivatives totaled 71 million gallons, 213 million gallons and 56 million gallons, respectively. At March 31, 2026, the maximum period over which we are economically hedging propane market price risk is through May 31, 2029.

To mitigate short-term market volatility associated with commodity instruments, the Partnership from time to time enters into diesel swap contracts for a portion of diesel volumes expected to be used in the operation of vehicles and equipment. The volumes associated with diesel swap and steel hedge contracts were not material for all periods presented.

Derivative Instruments Credit Risk

The Partnership is exposed to credit loss in the event of nonperformance by our derivative instrument counterparties. Our derivative instrument counterparties principally comprise major energy companies and major U.S. financial institutions. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by the Partnership in the forms of letters of credit, parental guarantees or cash.

We have concentrations of credit risk associated with derivative instruments and we evaluate the creditworthiness of our derivative counterparties on an ongoing basis. At March 31, 2026, the maximum amount of loss, based upon the gross fair values of the derivative instruments, we would incur if these counterparties failed to perform according to the terms of their contracts was \$12. At March 31, 2026, the Partnership had received no cash collateral from derivative instrument counterparties. In addition, we may have offsetting derivative liabilities and certain accounts payable balances with certain of these counterparties, which further mitigates the previously mentioned maximum amount of losses. Certain of our derivative contracts have credit-risk-related contingent features that may require the posting of additional collateral in the event of a downgrade in the Partnership's debt rating. At March 31, 2026, if the credit-risk-related contingent features were triggered, the amount of collateral required to be posted would not be material.

Offsetting Derivative Assets and Liabilities

Derivative assets and liabilities are presented net by counterparty on the Condensed Consolidated Balance Sheets if the right of offset exists. Our derivative instruments comprise over-the-counter transactions. Over-the-counter contracts are bilateral contracts that are transacted directly with a third party. Certain over-the-counter contracts contain contractual rights of offset through master netting arrangements and contract default provisions. In addition, the contracts are subject to conditional rights of offset through counterparty nonperformance, insolvency, or other conditions.

In general, many of our over-the-counter transactions are subject to collateral requirements. Types of collateral generally include cash or letters of credit. Cash collateral paid by us to our over-the-counter derivative counterparties, if any, is reflected in the table below to offset derivative liabilities. Cash collateral received by us from our over-the-counter derivative counterparties, if any, is reflected in the table below to offset derivative assets. Certain other accounts receivable and accounts payable balances recognized on the Condensed Consolidated Balance Sheets with our derivative counterparties are not included in the table below but could reduce our net exposure to such counterparties because such balances are subject to master netting or similar arrangements.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

Fair Value of Derivative Instruments

The following table presents our derivative assets and liabilities by type, as well as the effects of offsetting:

	March 31, 2026	September 30, 2025	March 31, 2025
Derivative assets:			
Derivative assets not designated as hedging instruments:			
Commodity contracts	\$ 12	\$ 1	\$ 4
Total derivative assets — gross	12	1	4
Gross amounts offset in the balance sheet	—	(1)	—
Total derivative assets — net (a)	<u>\$ 12</u>	<u>\$ —</u>	<u>\$ 4</u>
Derivative liabilities:			
Derivative liabilities not designated as hedging instruments:			
Commodity contracts	\$ —	\$ (7)	\$ —
Total derivative liabilities — gross	—	(7)	—
Gross amounts offset in the balance sheet	—	1	—
Total derivative liabilities — net (a)	<u>\$ —</u>	<u>\$ (6)</u>	<u>\$ —</u>

(a) Derivative assets or liabilities with maturities less than one year, if any, are included in “Prepaid expenses and other current assets” or “Other current liabilities”, respectively, on the Condensed Consolidated Balance Sheets. Derivative assets with maturities over one year, if any, are included in “Other assets” on the Condensed Consolidated Balance Sheets.

Effects of Derivative Instruments

Derivative instruments net gains (losses) reflected on the Condensed Consolidated Statements of Operations comprise the following:

Derivatives Not Designated as Hedging Instruments:	Three Months Ended March 31,		Six Months Ended March 31,		Location of Gain (Loss) Recognized in Income
	2026	2025	2026	2025	
Commodity contracts	\$ 24	\$ 10	\$ 7	\$ 16	Cost of sales — propane

We are also a party to a number of contracts that have elements of a derivative instrument. These contracts include, among others, binding purchase orders, contracts that provide for the purchase and delivery of propane and service contracts that require the counterparty to provide commodity storage or transportation service to meet our normal sales commitments. Although certain of these contracts have the requisite elements of a derivative instrument, these contracts qualify for NPNS accounting under GAAP because they provide for the delivery of products or services in quantities that are expected to be used in the normal course of operating our business and the price in the contract is based on an underlying that is directly associated with the price of the product or service being purchased or sold.

Note 10 — Related Party Transactions

Partnership and Management Services Agreement. The General Partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on behalf of the Partnership. These costs include employee compensation and benefit expenses of employees of the General Partner and general and administrative expenses.

Administrative Services. UGI provides certain financial and administrative services to the General Partner. UGI bills the General Partner monthly for all direct and indirect corporate expenses incurred in connection with providing these services and the General Partner is reimbursed by the Partnership for these expenses. The allocation of indirect UGI corporate expenses to the Partnership utilizes a weighted, three-component formula based on the relative percentage of the Partnership’s revenues,

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(Millions of dollars, except where indicated otherwise)

operating expenses and net assets employed to the total of such items for all UGI operating subsidiaries for which general and administrative services are provided. The General Partner believes that this allocation method is reasonable and equitable to the Partnership. In addition, UGI and certain of its subsidiaries provide office space, stop loss medical coverage and automobile liability insurance to the Partnership.

Propane Purchases and Sales. AmeriGas OLP purchases propane on an as needed basis from Energy Services. The price of the purchases is generally based on market price at the time of purchase. The purchases of propane by AmeriGas OLP from Energy Services during the three and six months ended March 31, 2026 and 2025 were not material.

In addition, AmeriGas OLP sells propane to affiliates of UGI. These sales of propane to affiliates of UGI during the three and six months ended March 31, 2026 and 2025 were not material.

Intercompany Loan. On February 4, 2025, the Partnership borrowed \$221 pursuant to an intercompany loan agreement with UGI International as a lender. As of March 31, 2026, borrowings outstanding on the intercompany loan were \$150. See Note 6 for additional information on our intercompany loan agreement.

UGI, through its operating subsidiaries, expects to contribute \$300 in cash to the Partnership in May 2026, which will be funded and distributed to UGI by UGI International in May 2026. These contributions are expected to be used for the full repayment of the \$150 of borrowings outstanding on the intercompany loan with UGI International.

The following related party transactions are included in “Accounts receivable” and “Accounts payable” on the Condensed Consolidated Balance Sheets:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Information contained in this Quarterly Report contains forward-looking statements. Such statements use forward-looking words such as "believe," "plan," "anticipate," "continue," "estimate," "expect," "may," or other similar words and terms of similar meaning, although not all forward-looking statements contain such words. These statements discuss plans, strategies, events or developments that we expect or anticipate will or may occur in the future.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We believe that we have chosen these assumptions or bases in good faith and that they are reasonable. However, we caution you against relying on any forward-looking statement as these statements are subject to risks and uncertainties that may cause actual results to vary from assumed facts or bases, and the differences between actual results and assumed facts or bases can be material, depending on the circumstances. When considering forward-looking statements, you should keep in mind those factors set forth in the Risk Factors section in the Partnership's 2025 Annual Report and the following important factors that could affect our future results and could cause those results to differ materially from those expressed in our forward-looking statements: (1) weather conditions, including increasingly uncertain weather patterns due to climate change, resulting in reduced demand, the seasonal nature of our business, and disruptions in our operations and supply chain; (2) cost volatility and availability of propane, as well as the availability of propane cylinders, and the capacity to transport propane to our customers; (3) the availability of, and our ability to consummate, acquisition or combination opportunities; (4) changes in laws and regulations, including safety, health, tax, transportation, consumer protection, data privacy, accounting, trade restrictions and policies, such as tariffs and related sanctions, and environmental matters, such as regulatory responses to climate change; (5) competitive pressures from the same and alternative energy sources; (6) failure to acquire new customers or retain current customers thereby reducing or limiting any increase in revenues; (7) liability for environmental claims; (8) increased customer conservation measures due to high propane prices resulting in reduced demand; (9) our ability to attract, develop, retain and engage key employees; (10) customer, counterparty, supplier, or vendor defaults; (11) liability for uninsured claims and for claims in excess of insurance coverage, including those for personal injury and property damage arising from explosions, acts of war, terrorism, natural disasters, pandemics and other catastrophic events that may result from operating hazards and risks incidental to transporting, storing and distributing propane; (12) political, regulatory and economic conditions in the United States, the conflict in the Middle East, and the adoption and expansion of tariffs or other trade restrictions and policies; (13) credit and capital market conditions, including reduced access to capital markets and interest rate fluctuations; (14) changes in commodity market prices resulting in significantly higher cash collateral requirements; (15) the impact of pending and future legal or regulatory proceedings, inquiries or investigations; (16) the success of our strategic initiatives and investments that are intended to advance our business strategy; (17) the interruption, disruption, failure, malfunction, or breach of our information technology systems, and those of our third-party vendors or service providers, including due to cyber attack; (18) our ability to achieve the operational benefits and cost efficiencies expected from the completion of pending and future business transformation initiatives, including the impact of customer service disruptions resulting in potential customer loss; (19) the impact of a material impairment of our assets; (20) uncertainties related to global pandemics; (21) the impact of changes in governmental policies related to tariffs, reciprocal and retaliatory tariffs, and other tariff-related measures, trade agreements, or policies; (22) our ability to protect our intellectual property; (23) our ability to overcome supply chain issues that may result in delays or shortages in, as well as increased costs of, equipment, materials or other resources that are critical to our business operations; and (24) our ability to control operating costs and realize cost savings.

These factors, and those factors set forth in the Risk Factors section in the Partnership's 2025 Annual Report are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results. Any forward-looking statement speaks only as of the date on which such statement is made. We undertake no obligation (and expressly disclaim any obligation) to update any forward-looking statement whether as a result of new information or future events.

ANALYSIS OF RESULTS OF OPERATIONS

The following analyses compare the Partnership's results of operations for the 2026 three-month period with the 2025 three-month period and the 2026 six-month period with the 2025 six-month period.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

Our results are significantly influenced by temperatures in our service territories particularly during the heating season months of October through March. As a result, our operating results, after adjusting for the effects of gains and losses on commodity derivative instruments not associated with current-period transactions as further discussed below, are significantly higher in our first and second fiscal quarters.

Non-GAAP Financial Measures

AmeriGas Partners' management presents the non-GAAP measures "adjusted net income," "adjusted total margin," and "adjusted operating income" in order to assist in the evaluation of the Partnership's overall performance. Management believes that these non-GAAP measures provide meaningful information to investors about AmeriGas Partners' performance because they eliminate the impact of (1) changes in unrealized gains and losses on commodity derivative instruments not associated with current-period transactions and (2) other significant discrete items that can affect the comparison of period-over-period results. Non-GAAP financial measures are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not as a substitute for, the comparable GAAP measures.

AmeriGas Partners does not designate its commodity derivative instruments as hedges under GAAP. As a result, volatility in net income can occur as gains and losses on commodity derivative instruments not associated with current-period transactions, principally comprising non-cash changes in unrealized gains and losses, are reflected in cost of sales. However, we expect that such gains and losses on derivative instruments will be largely offset by gains and losses on anticipated future commodity purchases.

The following table includes reconciliations of adjusted total margin, adjusted operating income, and adjusted net income to the most directly comparable financial measures calculated and presented in accordance with GAAP for the periods presented:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2026	2025	2026	2025
Adjusted total margin:				
Total revenues	\$ 759	\$ 848	\$ 1,359	\$ 1,475
Cost of sales — propane	(273)	(383)	(517)	(637)
Cost of sales — other	(11)	(16)	(28)	(35)
Total margin	\$ 475	\$ 449	\$ 814	\$ 803
(Subtract net gains) add net losses on commodity derivative instruments not associated with current-period transactions	(27)	(3)	(17)	(10)
Adjusted total margin	\$ 448	\$ 446	\$ 797	\$ 793
Adjusted operating income:				
Operating income	\$ 184	\$ 157	\$ 246	\$ 238
(Subtract net gains) add net losses on commodity derivative instruments not associated with current-period transactions	(27)	(3)	(17)	(10)
Adjusted operating income	\$ 157	\$ 154	\$ 229	\$ 228
Adjusted net income:				
Net income	\$ 146	\$ 121	\$ 171	\$ 168
(Subtract net gains) add net losses on commodity derivative instruments not associated with current-period transactions	(27)	(3)	(17)	(10)
Adjusted net income	\$ 119	\$ 118	\$ 154	\$ 158

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

Executive Overview

2026 three-month period compared with 2025 three-month period

Net income for the 2026 and 2025 three-month periods was \$146 and \$121, respectively. These results reflect net unrealized gains on commodity derivative instruments not associated with current-period transactions of \$27 and \$3, respectively. Adjusted net income for the 2026 three-month period was comparable to the prior-year period.

2026 six-month period compared with 2025 six-month period

Net income for the 2026 and 2025 six-month periods was \$171 and \$168, respectively. These results reflect net unrealized gains on commodity derivative instruments not associated with current-period transactions of \$17 and \$10, respectively.

Adjusted net income for the 2026 six-month period was \$154 compared with \$158 in the prior-year period. The decrease in adjusted net income principally reflects higher operating and administrative expenses and higher interest expense, partially offset by higher adjusted total margin and lower depreciation and amortization expenses.

ANALYSIS OF RESULTS OF OPERATIONS

2026 three-month period compared with the 2025 three-month period

Three Months Ended March 31,	2026	2025	Increase (Decrease)	
(Gallons in millions)				
Gallons sold:				
Retail	256	269	(13)	(5)%
Wholesale	15	29	(14)	(48)%
	271	298	(27)	(9)%
Revenues:				
Retail propane	\$ 685	749	\$ (64)	(9)%
Wholesale propane	14	35	(21)	(60)%
Other	60	64	(4)	(6)%
	\$ 759	\$ 848	\$ (89)	(10)%
Total margin (a)	\$ 475	\$ 449	\$ 26	6 %
Operating and administrative expenses	\$ 258	\$ 257	\$ 1	— %
Depreciation and amortization	\$ 41	\$ 45	\$ (4)	(9)%
Operating income	\$ 184	\$ 157	\$ 27	17 %
Net income	\$ 146	\$ 121	\$ 25	21 %
Non-GAAP financial measures (b):				
Adjusted total margin	\$ 448	\$ 446	\$ 2	— %
Adjusted operating income	\$ 157	\$ 154	\$ 3	2 %
Adjusted net income	\$ 119	\$ 118	\$ 1	1 %
Heating degree days—% colder (warmer) than normal (c)	(2.4)%	2.8 %	—	—

(a) Total margin represents total revenues less “Cost of sales — propane” and “Cost of sales — other.” Total margin for the 2026 and 2025 three-month periods includes the impact of net unrealized gains of \$27 and \$3, respectively, on commodity derivative instruments not associated with current-period transactions.

(b) These financial measures are non-GAAP financial measures and are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not a substitute for, the comparable GAAP measures. See section “Non-GAAP Financial Measures” above.

(c) Deviation from average heating degree days is determined on a rolling 10-year period utilizing volume-weighted weather data based on weather statistics provided by NOAA for 344 regions in the United States, excluding Alaska and Hawaii.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

Average temperatures during the 2026 three-month period were 2.4% warmer than normal and 4.8% warmer than the prior-year period. Total retail gallons sold decreased 5% during the 2026 three-month period primarily due to the impact from the warmer weather and continuing customer attrition.

Average daily wholesale propane commodity prices during the 2026 three-month period at Mont Belvieu, Texas, one of the major supply points in the U.S., were approximately 23% lower than such prices during the 2025 three-month period. Total revenues decreased \$89 during the 2026 three-month period largely reflecting lower retail volumes sold (\$36), the effects of lower average retail propane selling prices (\$28) and lower wholesale revenues (\$21).

Total cost of sales decreased \$115 during the 2026 three-month period compared to the prior-year period. Cost of sales in the 2026 and 2025 three-month periods include net unrealized gains of \$27 and \$3, respectively, on commodity derivative instruments not associated with current-period transactions. Excluding the effects on cost of sales of these commodity derivative instruments, total cost of sales decreased \$91 during the 2026 three-month period largely reflecting lower retail propane product costs (\$46), wholesale cost of sales (\$22) and the lower retail volumes sold (\$17).

Total margin increased \$26 during the 2026 three-month period compared to the prior-year period. Adjusted total margin increased \$2 as the higher average retail propane unit margins (\$18) and higher fee income (\$2) were substantially offset by the lower retail propane volumes sold (\$19).

Operating income increased \$27 during the 2026 three-month period compared to the prior-year period. Adjusted operating income increased \$3 as the increase in adjusted total margin (\$2) and lower depreciation and amortization expense (\$4) were partially offset by slightly higher operating and administrative expenses and slightly lower gains on asset sales.

Net income increased \$25 during the 2026 three-month period compared to the prior-year period. Adjusted net income during the 2026 three-month period was comparable to the prior-year period.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

2026 six-month period compared with the 2025 six-month period

Six Months Ended March 31,	2026	2025	Increase (Decrease)	
(Gallons in millions)				
Gallons sold:				
Retail	461	473	(12)	(3)%
Wholesale	25	51	(26)	(51)%
	<u>486</u>	<u>524</u>	<u>(38)</u>	<u>(7)%</u>
Revenues:				
Retail propane	\$ 1,211	\$ 1,282	\$ (71)	(6)%
Wholesale propane	24	57	(33)	(58)%
Other	124	136	(12)	(9)%
	<u>\$ 1,359</u>	<u>\$ 1,475</u>	<u>\$ (116)</u>	<u>(8)%</u>
Total margin (a)	\$ 814	\$ 803	\$ 11	1 %
Operating and administrative expenses	\$ 502	\$ 493	\$ 9	2 %
Depreciation and amortization	\$ 85	\$ 90	\$ (5)	(6)%
Operating income	\$ 246	\$ 238	\$ 8	3 %
Net income	\$ 171	\$ 168	\$ 3	2 %
Non-GAAP financial measures (b):				
Adjusted total margin	\$ 797	\$ 793	\$ 4	1 %
Adjusted operating income	\$ 229	\$ 228	\$ 1	— %
Adjusted net income	\$ 154	\$ 158	\$ (4)	(3)%
Heating degree days—% (warmer) than normal (b)	(0.9)%	(1.1)%	—	—

(a) Total margin represents total revenues less “Cost of sales — propane” and “Cost of sales — other.” Total margin for the 2026 and 2025 six-month periods include the impact of net unrealized gains of \$17 and \$10, respectively, on commodity derivative instruments not associated with current-period transactions.

(b) These financial measures are non-GAAP financial measures and are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not a substitute for, the comparable GAAP measures. See section “Non-GAAP Financial Measures” above.

(c) Deviation from average heating degree days is determined on a rolling 10-year period utilizing volume-weighted weather data based on weather statistics provided by NOAA for 344 regions in the U.S., excluding Alaska and Hawaii.

Average temperatures during the 2026 six-month period were 0.9% warmer than normal and 0.4% colder than the prior-year period. Total retail gallons sold decreased 3% compared to the prior-year period as the effects of colder weather in the Eastern U.S. were more than offset by (1) the warmer weather in the Western U.S.; (2) the sale of the LPG operations in Hawaii in September 2025; and (3) continuing customer attrition.

Average daily wholesale propane commodity prices during the 2026 six-month period at Mont Belvieu, Texas, one of the major supply points in the U.S., were approximately 19% lower than such prices during the 2025 six-month period. Total revenues decreased \$116 during the 2026 six-month period reflecting the effects of lower average retail propane selling prices (\$39), lower retail volumes sold (\$33) and lower wholesale revenues (\$33).

Total cost of sales decreased \$127 during the 2026 six-month period compared to the prior-year period. Cost of sales in the 2026 and 2025 six-month periods include net unrealized gains of \$17 and \$10, respectively, on commodity derivative instruments not associated with current-period transactions. Excluding the effects on cost of sales of these commodity derivative instruments, total cost of sales decreased \$120 during the 2026 six-month period largely reflecting lower retail propane product costs (\$63), lower wholesale cost of sales (\$34) and lower retail volumes sold (\$15).

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

Total margin increased \$11 during the 2026 six-month period compared to the prior-year period. Adjusted total margin during the 2026 six-month period increased \$4 as the impact from higher average retail propane unit margins (\$25) was largely offset by the lower retail propane volumes sold (\$18) and lower fee income (\$4).

Operating income increased \$8 during the 2026 six-month period compared to the prior-year period. Adjusted operating income increased \$1 during the 2026 six-month period as the increase in adjusted total margin (\$4) and lower depreciation and amortization expenses (\$5) were substantially offset by higher operating and administrative expenses (\$9). The increase in operating and administrative expenses primarily reflects higher compensation expenses and advertising expenses.

Net income increased \$3 during the 2026 six-month period compared to the prior-year period. Adjusted net income decreased \$4 during the 2026 six-month period primarily reflecting higher interest expense (\$5) mainly from the effects of higher interest rates on long-term debt, partially offset by lower average long-term debt outstanding during the 2026 six-month period.

FINANCIAL CONDITION AND LIQUIDITY

The Partnership expects to have sufficient liquidity, including cash on hand and available credit agreement borrowings, to continue to support long-term commitments and ongoing operations. As of March 31, 2026, the \$150 borrowings outstanding on the intercompany loan due January 2027 are classified as “Current maturities of long-term debt” on the Condensed Consolidated Balance Sheet. The Partnership does not have any near-term senior note maturities. The Partnership was in compliance with all of its debt covenants as of March 31, 2026.

The Partnership’s cash and cash equivalents at March 31, 2026 and September 30, 2025 were \$99 and \$64, respectively. The Partnership’s debt outstanding at March 31, 2026 totaled \$1,693 (including current maturities of long-term debt of \$150). The Partnership’s debt outstanding at September 30, 2025 totaled \$1,741 (including current maturities of long-term debt of \$35). Total long-term debt outstanding at March 31, 2026, including current maturities, principally comprises \$150 of borrowings outstanding on the intercompany loan, \$1,555 of AmeriGas Partners’ senior notes and is net of \$12 of unamortized debt issuance costs.

Information about the Partnership’s credit agreement is presented in the following table, as of:

	Total Capacity	Borrowings Outstanding	Letters of Credit and Guarantees Outstanding	Available Borrowing Capacity
March 31, 2026 (a)	\$ 269	\$ —	\$ 1	\$ 268
March 31, 2025 (a)	\$ 299	\$ —	\$ 1	\$ 298

(a) The maximum amount available for borrowing at any time under the AmeriGas Senior Secured Revolving Credit Facility is limited to the borrowing base valuation, as defined in the agreement.

The average daily and peak short-term borrowings under the Partnership’s credit agreement is as follows:

	Average	Peak
For the six months ended March 31, 2026	\$ 15	\$ 57
For the six months ended March 31, 2025	\$ 41	\$ 85

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

Significant Financing Activities

The following significant financing activities occurred during Fiscal 2026.

During the first quarter of Fiscal 2026, the Partnership repaid \$50 of borrowings outstanding on the intercompany loan. As of March 31, 2026, the remaining \$150 of borrowings outstanding was classified as “Current maturities of long-term debt” on the Condensed Consolidated Balance Sheet, as the loan matures in January 2027.

Cash Flows

Due to the seasonal nature of the Partnership’s business, cash flows from operating activities are generally greatest during the second and third fiscal quarters when customers pay for propane consumed during the heating-season months. Conversely, operating cash flows are generally at their lowest levels during the first and fourth fiscal quarters when the Partnership’s investment in working capital, principally accounts receivable and inventories, is generally greatest. The Partnership may use its AmeriGas Senior Secured Revolving Credit Facility to satisfy its seasonal operating cash flow needs.

Operating activities. Cash flow provided by operating activities was \$116 in the 2026 six-month period compared to \$132 in the 2025 six-month period. Cash flow from operating activities before changes in operating working capital was \$239 in the 2026 six-month period compared to \$261 in the prior-year period. The lower cash flow from operating activities before changes in operating working capital principally reflects the increase in unrealized losses on derivative instruments as well as the decrease in depreciation and amortization in the 2026 six-month period. Cash used to fund changes in operating working capital was \$123 in the 2026 six-month period compared to cash used of \$129 in the 2025 six-month period. Changes in operating working capital during the 2026 six-month period reflect, among other things, an increase in cash used to fund changes in inventories and other current liabilities, partially offset by a decrease in cash used to fund accounts payable and accounts receivable.

Investing activities. Investing activity cash flow principally comprises expenditures for property, plant and equipment and proceeds from disposals of assets. Cash flow used by investing activities was \$31 in the 2026 six-month period compared with cash flow used of \$25 in the prior-year period. During the 2026 six-month period, the increase in cash flow used in investing activities principally reflects, increased expenditures for property, plant and equipment partially offset by proceeds from disposals of assets.

Financing activities. Financing activity cash flow principally comprises cash contributions, issuances and repayments of long-term debt, and short-term borrowings and repayments. Cash flow used by financing activities during the 2026 six-month period was \$50 compared to cash flow used of \$69 in the prior-year period. During the 2026 six-month period financing activity cash flow used principally reflects, among other things, repayments of the intercompany loan from UGI International. The decrease in cash flows used by financing activities principally reflects decreased repayments of short-term borrowings and no issuances of long-term debt.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

(Millions of dollars, except where indicated otherwise)

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary financial market risks include commodity prices for propane. Although we use derivative financial and commodity instruments to reduce market price risk associated with forecasted transactions, we do not use derivative financial and commodity instruments for speculative or trading purposes.

Commodity Price Risk

The risk associated with fluctuations in the prices the Partnership pays for propane is principally a result of market forces reflecting changes in supply and demand for propane and other energy commodities. The Partnership's profitability is sensitive to changes in propane supply costs and the Partnership generally passes on increases in such costs to customers. The Partnership may not, however, always be able to pass through product cost increases fully, or on a timely basis, particularly when product costs rise rapidly. In order to reduce the volatility of the Partnership's propane market price risk, we use contracts for the forward purchase or sale of propane, propane fixed-price supply agreements, and over-the-counter derivative commodity instruments including price swap contracts. Over-the-counter derivative commodity instruments utilized by the Partnership to hedge forecasted purchases of propane are generally settled at expiration of the contract. These derivative financial instruments contain collateral provisions.

In addition, the Partnership from time to time enters into diesel swap contracts for a portion of diesel volumes expected to be used in the operation of vehicles and equipment. The volumes associated with diesel contracts were not material for all periods presented.

The fair value of unsettled commodity price risk sensitive instruments at March 31, 2026, was a net gain of \$12. A hypothetical 10% adverse change in the market price of certain commodities would result in a decrease in such fair value of approximately \$9.

Derivative Instruments Credit Risk

The Partnership is exposed to credit loss in the event of nonperformance by our derivative instrument counterparties. Our derivative instrument counterparties principally comprise major energy companies and major U.S. financial institutions. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by the Partnership in the forms of letters of credit, parental guarantees or cash.

We have concentrations of credit risk associated with derivative instruments and we evaluate the creditworthiness of our derivative counterparties on an ongoing basis. At March 31, 2026, the maximum amount of loss, based upon the gross fair values of the derivative instruments, we would incur if these counterparties failed to perform according to the terms of their contracts was \$12. At March 31, 2026, the Partnership had received no cash collateral from derivative instrument counterparties. In addition, we may have offsetting derivative liabilities and certain accounts payable balances with certain of these counterparties, which further mitigates the previously mentioned maximum amount of losses. Certain of our derivative contracts have credit-risk-related contingent features that may require the posting of additional collateral in the event of a downgrade in the Partnership's debt rating. At March 31, 2026, if the credit-risk-related contingent features were triggered, the amount of collateral required to be posted would not be material.

AMERIGAS PARTNERS, L.P. AND SUBSIDIARIES

CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

The General Partner’s disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by the Partnership in this Quarterly Report is (i) recorded, processed, summarized, and reported within the time periods specified in the indentures, and (ii) accumulated and communicated to our management, including the President, as appropriate to allow timely decisions regarding required disclosure. The General Partner’s management, with the participation of the General Partner’s President, evaluated the effectiveness of the Partnership’s disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the President concluded that the Partnership’s disclosure controls and procedures, as of the end of the period covered by this report, were effective at the reasonable assurance level.

(b) Change in Internal Control over Financial Reporting

No change in the Partnership’s internal control over financial reporting occurred during the Partnership’s most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Partnership’s internal control over financial reporting.

LEGAL PROCEEDINGS

The information set forth in Note 7 to Condensed Consolidated Financial Statements included in this Report, is incorporated herein by reference.

RISK FACTORS

In addition to the information presented in this Report, you should carefully consider the factors discussed in “Risk Factors” in our 2025 Annual Report, which could materially affect our business, financial condition or future results. The risks described in our 2025 Annual Report are not the only risks facing the Partnership. Other unknown or unpredictable factors could also have material adverse effects on future results.
